

News from Cooley, Shrair P.C.

Dedicated to providing a full spectrum of legal services, Cooley Shrair has served individuals as well as multinational businesses throughout the United States since 1946. Our attorneys are each distinguished in their respective areas of concentration and are complemented by our professional support staff. We consistently exceed expectations by providing competent, integrated legal services in a cost-effective manner and our client centered approach begins by listening carefully to best understand our clients' concerns then working to develop and implement strategies for success.

This is the foundation of our firm and is presented in our mission statement - we promise unparalleled response time and unparalleled solutions, and we fulfill that promise. This commitment is what distinguishes us and contributes to our continued success.

It's not just business, it's personal.

In 2011 we are pleased to launch our updated logo. We believe this updated look captures the essence of who we are - a proud, dynamic law firm providing solutions to our clients and their families but never losing sight of the importance of balancing the boardroom and the courtroom with the living room from time to time. Here at Cooley Shrair, we're a family, and to us that is very personal business.

Keep an eye out for our new improved website launching later this year.
